Communists Infiltrate Police Force

By M. J. Sortillon

"Law enforcement has long been a target of communist attack . . . Lenin taught that it was essential for every 'real people's revolution' to destroy the 'ready-made state machinery.' Wherever communists have been able to exercise any measure of control, their first step has been to hamstring and incapacitate law enforcement . . ."

J. Edgar Hoover.

In November, 1922, the Fourth Congress of the Communist International ordered the creation of an international organization (International Red Aid) to assist the Communist Parties in their efforts to destroy law enforcement throughout the free world. Adjunct to this international communist organization was the International Labor Defense, organized in the U.S.A. by the Communist Party.

Communists, as revealed in testimony before the U. S. Senate Internal Security Committee, were instructed to make investigations and reports on the activities of the police in security service; investigate and repress those security organizations which support the government and find ways to infiltrate the police insecurity organizations to steal documents, particularly those recording their knowledge of communism and to destroy everything of value.

Louis Budenz, former editor of the Worker (Communist organ) and official of the Communist Party, disclosed that early in World War II the Communist Party had, through Bernard Chester, better known as comrade Chester, communists placed in the New York Police Department. One of these, according to Budenz, was Lieutenant Arthur Miller. "Not only did Miller and his comrades among the police discover who were penetrating the Communist Party" states Mr. Budenz . . . "But they also succeeded in getting four Party members

into the highly secret Bureau of Special Services and Investigations." It was further revealed that four of those allegedly penetrating the Communist Party were actually Communists penetrating the police department's Secret Service.

Chief of Police C. H. Anderson of the Beverly Hills Police Department on July 31, 1950 addressed a typewritten letter to the Hon. Sam L. Collins, speaker of the Assembly of the State of California.

In his letter the Chief of Police stated, "... The Chairman of the important Assembly Interim Committee on Crime and Correction, Vernon Kilpatrick, is a member of the Communist Party and is following the Communist Party line of conducting intensified and crafty campaign to disrupt law and order as a part of the Communist revolutionary planning . . ."

Assemblyman Kilpatrick, according to Chief Anderson, had taken the statements of convicted felons, ex-convicts and other police characters to smear and embarrass law enforcement officers throughout the state. And that Kilpatrick had at the California Taxpayers' expense, traveled throughout the United States and visited numerous federal and state penal institutions and as a loyal Communist Party member criticized the operations of the penal institutions of other states.

Upon investigation of the charges and evidence submitted by Chief Anderson, the California Committee on Un-American Activities revealed that Kilpatrick's associations with Communist enterprises and Communist front organizations had been going on for a period of 16 years, and pointed out in view of his record, Mr. Kilpatrick should not head a committee such as the Interim Committee on Crime and Correction.

In 1964, 57 policemen were murdered, raising to 197 the number of policemen

*"We shall smash them
with our clenched fist"*

who have been murdered in the last four years. And during the period of acts of civil disobedience, the number of policemen murdered annually in the line of duty has doubled.

F.B.I. figures show that 18,000 or 1 out of 10 policemen in this country were assaulted in 1964, and 7,738 policemen were injured in assaults in 1964. Other figures show that in 1964, in New York City seven police officers were killed, and 1,602 were injured in the line of duty. Policemen assaulted by civilians in the line of duty numbered 2,493 and 478 of these were put out of action for a time.

On August 19, 1964 the Richmond Times-Dispatch stated "Near home, in Washington, D. C., brutality is frequently alleged. But police there have been attacked so regularly by mobs that they hesitate to carry out their duties. Take the riot in Washington on the night of August 5. A mob of rock-throwing Negro hoodlums broke up a carnival, injuring nearly 100 people, including 9 policemen.

"But here is the amazing fact: not one arrest was made. An officer sought to explain by saying that it was raining rocks when he arrived. 'Furthermore, the minute

"We got there we realized it would be impossible to make even one arrest without touching off a full-scale riot" . . .

And while policemen are attacked, mauled and murdered the attackers scream "police brutality."

By far, however, one of the most vicious attacks on a policeman was the attack on patrolman Al Gilman of San Diego. Officer Gilman had stopped a car on U. S. 101 for speeding and had made a routine radio call for a registration check on the car when another call was received that he was being attacked! Officer Gilman was severely slashed with a meat cleaver and had two fingers severed. According to the AP report, the attackers told arresting officers that they were Black Muslims.

On September 2, 1965 UPI reported that the leader of the Black Muslims had invited all Negroes to enter into a mutual defense pact against the nation's police. According to the report, Elijah Muhammed said: "... We are inviting you (Negroes) to join in with us, and let us take a stand for ourselves.

"There is no justice for us; there is no help for us in this nation. We must remember that we must try now to defend ourselves against a free, loose army (of police), roaming the highways and streets . . ."

Senator Strom Thurmond recently stated "The term 'police brutality' has become an overworked slogan which has given the green light in this country to insurrection, riots, increased criminal activities, and the breakdown in law and order which we find today disrupting our country."

The September 6, 1965 issue of U. S. News and World Report in an article entitled "Police Brutality — Fact or Fiction?" stated: "As Negroes, students and others riot in the streets of America, being raised against police, instead of the rioters, is a

cry of 'brutality.' It's described as part of a technique to discredit law and order across the Nation.

"Police brutality is the cry going up from one end of the country to the other as Negro leaders seek to explain and justify riots. The same cry of police brutality is being sounded by demonstrators for all sorts of causes — civil rights, withdrawal from Vietnam, and free speech on college campuses . . .

"Diligent inquiry on the part of staff members of U. S. News and World Report has failed to turn up any evidence of any wave of brutality on the part of police toward citizens in the cities of the United States.

"What research does reveal is that civilian brutality against the police is being practiced rather widely . . .

"... Springfield, Mass., at the same time caught up in racial disturbances. These stemmed from a vice raid in which 17 Negroes and 1 white woman fought police attempting to arrest them. Again, police 'brutality' became the battle cry.

"In Washington, D. C., a few days earlier, 260 demonstrators against the Vietnam war were arrested for refusing to disperse from Capitol Grounds. There was resistance to arrest and one youth leaned out of a police van and struck a policeman. Demonstrators nonetheless complained of 'rough and insensitive' treatment by the police . . ."

The article further pointed out that instances are being reported where the use of brutality propaganda against the police appears to have been planned.

According to the report, Police in Berkeley, Calif., were on the firing line last year when student demonstrators at the University of California staged disorders in defiance of university police. Moreover, the students had formed a "Police Brutality Committee" which was grinding out propaganda even before the first arrests were made.

An official of the International Association of Chiefs of Police, Charles E. Moore, told the Senate Internal Security Subcommittee that the demonstrations at Berkeley were a classic example of techniques used by Communists to "destroy the public confidence in the police — when you destroy the symbol of authority and of the laws you bring about anarchy." (For a complete and revealing account of the student riots at the University of California in Berkeley, write Senator Hugh Burns of the California Committee on Un-American Activities for its 1965 Report.)

U. S. News and World Report further points out that police are becoming reluctant to crack down on criminals in minority areas of big cities. Mr. Quinn Tamm, executive director of the International Association of Chiefs of Police, recently stated: "Many police have complained that the law is being applied unequally, with preferential treatment being given to minority groups. They feel pressure groups have succeeded in preventing police from fully enforcing the law where minority individuals are concerned."

It was further pointed out, that now, Negroes and some other groups are pressing for establishment of civilian boards, outside the police departments, to pass judgment on complaints.

The Fire and Police Research Association of Los Angeles revealed that the Southern California Branch of the Communist Party and the California Democratic Council are supporting a plan of the American Civil Liberties Union to establish Police Practice Review Boards. Mr. Norman H. Moore of the Association stated: "Herbert Romerstein, a former member of the Communist Party, has this to say 'In California, the ACLU and the NAACP have joined with the National Lawyers Guild, a frequently cited subversive organization, to push through Police Review Boards.' This would be of great help to the Communists as the police would be constantly tied up at hearings before the Board, policemen would be afraid to make arrests, and the Board could be used as a weapon to smear the police force . . ."

On September 18, 1964 the F.B.I. issued a report concerning the riots in 9 cities during 1964, and had this to say about police review boards: "The investigations also revealed that where there is an outside civilian review board the restraint of police was so great that effective action against the rioters appeared to be impossible. This restraint was well known in the community and the rioters were thereby emboldened to resist and completely defy the efforts of the police to restore order. In short the police were so careful to avoid accusations of improper conduct that they were virtually paralyzed.

"In one city with such an outside review board, police action was so ineffective that the police were finally ordered to withdraw from the riot area completely, and limit themselves to attempting to prevent the riot from spreading to other sections of the city. In another such city the police frankly admitted that the making of arrests for violent conduct and looting was 'unfeasible' and mob action continued at length without effective deterrence.

"Interviews with individual policemen from patrolmen to high ranking officers revealed a general feeling that if they take action deemed to be necessary in such situations they will be pilloried by civilians unfamiliar with the necessities of mob control or even ordinary police action and may lose their posts and their pensions . . ."

The courts, instead of taking a firm attitude toward criminals seem to be doing the opposite.

Professor B. E. Witkin, lecturer and noted expert on evidentiary law, speaking before a convention of District Attorneys, on June 16, 1965, told of how the U. S. Supreme Court and various state Supreme courts have given the benefit of protection to criminals instead of society. Professor Witkin cited case after case where crim-

WHAT ACTUALLY HAPPENED

The picture above was taken a few seconds before the picture shown in Newsweek. Annie Cooper, 265 lb. bouncer at a Selma motel, landed a surprise right to the eye of Dallas County Sheriff Jim Clark. Then she snatched a billy club from Deputy Sheriff Leo Nichols. She hung on to the billy club for dear life and with both hands as shown above. With effort Sheriff Clark managed to wrest the club away from Mrs. Cooper. Two deputies got handcuffs on her. The picture at right is a part of this action. Newsweek described it differently.

WHAT NEWSWEEK REPORTED

"With that, Mrs. Cooper wheeled on Sheriff Clark — eleven years her junior and six and one half pounds lighter — and landed a solid . . . right on his eye. While three deputies helped wrestle her to the ground, Clark scrambled astride her stomach and brought his billy down on her head with a resounding crack." — Newsweek, February 8, 1965.

inals were given favorable decisions against overwhelming evidence that should establish their guilt.

In California, Assemblyman Don Mulford stated that "Throughout the state a major complaint is directed at those judges in California who are giving soft sentences to repeat criminals . . . it may be that the time has come for the people of California to take a good look at the records of certain judges to determine if the people are being protected . . . or are not being protected because a judge places the rights of the criminal above the rights of the public . . ."

If the American people expect to be safe on the streets and in their homes they will have to support the law enforcement agencies and oppose actions of their local governments (usually brought on by pressure from left wing organizations) to establish Police Review Boards.

BLUEPRINT of the ROCHESTER POLICE "ADVISORY" BOARD

MAKE SENSE?

Neither does having a civilian Police "Advisory" Board!

COMING EVENTS CAST THEIR SHADOWS AHEAD

By H. Kohokolovich

You can learn from "THE WORKER," official Communist newspaper, one or two years in advance, what the Great Society and/or the U. S. "Left Press" will be promoting next.

About 1962 "THE WORKER" began promoting Martin Luther King, (got him the Nobel Prize, "TIMES" "Man of the Year," etc.) the NAACP, SCEF, CORE, etc. Note the following headlines from "WORKER":

Nov. 25, 1962 issue, "REV. KING FLAYS FBI SUPPORT OF RACIST MOBS." June 30, 1963 issue, "DETROIT RALLY OF 250,000 GREATEST, SAYS REV. KING."

By 1964 Lyndon, Jackie Javits, Mannie Celler, et al, had joined in and helped instigate Selma, Ala., St. Augustine, Fla., Harlem, N. Y., Chicago, Ill., and Rochester, N. Y.

About 1964 "THE WORKER," having contrived riots and sundry lawless activities, suddenly discovered POLICE BRUTALITY, and in the July 21, 1964 issue of "THE WORKER" we find the headline: "MURPHY'S GESTAPO COPS OCCUPY HARLEM, BEAT AND KILL IN HYSTERICAL RAGE," because these NON-VIOLENT sit-ins, stomp-ins, squat-ins, step-ins, and/or riots, naturally provoked Police Activity, so that the "BRUTALITY" of the Police, as they defended themselves from knives, guns, bricks, etc., was so HORRIBLE that, by 1965 not only "THE WORKER," but also, "THE NEW YORK TIMES" and assorted characters like E. Carson Blake, Peter Makris (see MANCHESTER UNION-LEADER," 15 July, 1965), many of them merely naive, others publicity seekers, were taking up the cry of "POLICE BRUTALITY," and demanding the setting up of "CIVILIAN REVIEW BOARDS," whose purpose would be to hobble and/or demoralize our Police Forces.

The purpose of all this, as in RUSSIA, CUBA, and wherever the Communists have moved in, is to destroy the morale and effectiveness of the Police and their supporters, so that when the street-fights and riots begin in earnest, YOU and I, unorganized, with our little .22 rifles might hold our own for a little while in our homes, but the Commies, the "Non-Violent" Boys, et al, being organized, would take-over the key points with no effective opposition from our, NOW, disorganized Police.

THE FIRST TO FALL

Are

Those Involved in the Enforcement
of Law and Order

Republished from The Eagle

Revolution occurs when two opposing political ideologies, each threatening the survival of the other, meet head-on in a final struggle to determine which shall prevail.

Revolution, the violent brand, calls for political prisons, hysteria, firing squads — all of which end in pain, bloodshed and death.

Revolution, the non-violent brand, is equally effective in accomplishing the transfer of complete power to the victor, but it, too, operates on the principle that some must fall to destruction.

"The First To Fall" are those involved in the enforcement of law and order. The success of revolution is in direct ratio to the failure of law enforcement. Physical and moral assassination of the law officer has high priority on the timetable of the revolutionary. Accusations of brutality and immorality are repeated monotonously, until by repetition alone the big lie has an aura of truth. Those who are easily influenced change respect to hate . . . for the police.

Revolution succeeds where police are "handcuffed" by laws which unnecessarily hamper arrest and prosecution by placing all the odds in favor of the criminal; where Police Review Boards, "The Third Tribunal," harass the police officer in the performance of his duties; where quick release of convicted lawbreakers makes a mockery of the arrest, the trial, and the court; and finally when the public begins to feel that law enforcement is a useless effort and expense — when the police fail — the government is broken!

Our best defense against revolution is a superior attack on the forces opposing the principles of this country's constitution. Let each of us search out anyone who speaks against, who votes against, who acts against the Constitution. Let each of us do his utmost to maintain law and order, that history may never record that any Police Department in America was among "The First To Fall."

A PRAYER FOR THE UNITED STATES

Let us unite in imploring the Supreme Ruler of Nations to spread His holy protection over these United States:

To turn the machinations of the wicked; to the confirming of the Constitution;

To enable us at all times to root out internal sedition and put invasion to flight;

And to perpetuate to our country that prosperity which His goodness has already conferred. Amen.

—Composed by George Washington, 1794.

Campus Treason

WHO IS TEACHING AMERICA'S CHILDREN TO BE MARXISTS?

"It has long been a basic tenet of Communist strategy to control for its own evil purposes the explosive force which youth represents. In the relentless struggle for world domination being waged by them, Communists are dedicated to the Leninist principle that 'youth will decide the issue of the entire struggle — both the student youth and, still more, the working class youth.'" — J. Edgar Hoover, in "Communist Target: YOUTH" (See "Who is Teaching Our Children?")

The way to stop this criminal clamor on the campus is by quick public recognition of its subversive origin, its seditious sustenance, and its treasonable purpose. The current disorders were seeded many years ago when the Red Socialists laid siege to our schools and colleges in an ambitious plan to capture this country by subverting and changing its "mind." This decision was in the well-tested tradition of patient but persistent Communist strategy . . . The effectiveness of this devious technique is written across all of the paths that the conquering conquest has made through Eastern Europe, Asia, and Latin America . . . The logical place to soften us up for surrender is the place where our intellectual leadership is developed, namely, in our colleges and universities . . ." — Dean Manion (from the Manion Forum).

ANARCHY CANNOT BE PERMITTED IN THE LAND!

Where were the "peace marchers" when the Communists gobbled up Lithuania, Latvia, Estonia, Poland, Albania, China, East Germany, Czechoslovakia, North Korea, North Viet Nam, Tibet, Cuba, when the Communists invaded little Finland, when the U.N. mercenary troops raped anti-Communist Katanga?

There were no "civil rights" fighters when the Communist tanks and guns crushed the revolt in Hungary by slaughtering thousands of citizens who sought just a small part of the freedom possessed by the most oppressed in our own nation.

How can we handle the acts of hooliganism taking place in our schools? The Indianapolis STAR answered:

"There are no issues demanding sit ins or stand ins; the real issue is law, order, and discipline.

"These unruly kids should be kicked out of college. Both they and the colleges would be better off for it. A university is a place for learning, not a place for mob rule. Students have to be taught respect not only for law but for the rights of others to learn and study in peace. It is not their business to try to run a college or dominate its policies — they are supposed to be educating themselves, not propagandizing and demonstrating.

"The way to stop another University of California incident is — not to give in to threats of a bunch of leftist sheep who care not for our country's welfare. The way to stop it is to disperse the illegal mob with whatever means are required. And that means, IF NECESSARY, tear gas, police dogs, police horses, fire hose and whatever else is required.

"Anarchy cannot be permitted in the land . . ."

CAN A POLICEMAN WIN?

"NO WIN" POLICY

Could you work with one hand tied behind your back? The present day policeman's lot is worse. The limitations and restrictions placed upon a policeman in the ordinary performance of his duty defy description, caught as he is in a maze of red tape, criminal coddling, and regulations deliberately twisted in favor of the criminal. Like our Generals in the Korean War, **THE POLICEMAN IS NOT PERMITTED TO WIN.**

Consider the following restrictions and limitations upon law enforcement officers many of whom risk their lives daily in the performance of their duty. JIM BISHOP'S column in RECORD AMERICAN, Boston, dated Aug. 14, 1965 states:

"The cop has never fallen so low. He must (1) prevent crime; (2) detect crime; (3) apprehend a criminal without bruising him; (4) apprise the criminal of his legal rights and try to stop him from confessing; (5) hide the story from the press; (6) give the criminal the benefit of every doubt; (7) when facing sudden death, be prepared not to defend himself because he might kill someone and be dismissed from the force."

We indeed live in a changing America.

CHRISTMAS CARD TRICKERY

Is the hand of the big conspiracy at work in our Christmas card business? Each year there are fewer cards shown with the Holy Night theme. Each year there are more of the so-called humorous type cards, and subjects which have no relation to our traditional Christmas. Furthermore, when it comes to quality and excellence of design the non-Christian cards appear superior as a rule to the Christian type card. And, strangely, the latter seem to be higher priced. This naturally results in a higher sales rate of the former.

During the coming holiday season let us shop with our eyes open when selecting greeting cards, and spend a little extra time finding attractive Christian subjects. While doing this we might well note which firms are replacing our traditional Christmas themes with the new image, or giving our holy pictures the grotesque treatment.

Laws are more often made to protect the criminal than society.

"... The cop is the defendant; the district attorney must bargain with criminals; the judge must extend mercy or expect to be hounded as a hanging judge."

SUPPORT YOUR LOCAL POLICE. Stand by them. Keep crime at a minimum. Demand that Marxist pressure groups carrying on this criminal conspiracy against the police be silenced. **STRIKE DOWN THE CRIMINAL-CODDLING JUDGES AND CRIME-PROMOTING COURTS!** Only then can we return to the sanity and law and order our land once knew.

Americans must fight the efforts of the Left to establish "Civilian Review Boards." They are, in the words of Police Chief Dan Liu, of Honolulu, "... a secret weapon of a foreign ideology whose first objective in a bid to gain control of a nation is to disrupt, corrupt, and, in general, to destroy the police."

A strong, well-manned, well-paid, honest, and independent local police, supported by able-bodied and properly trained citizens, is an impassable barrier to Communist take-over in our nation.
